Life's about balance

- Busy lifestyles, work or family commitments can make achieving a healthy balanced diet a challenge
- Centrum offers a range of tailored multivitamin supplements including a specific range for adults over 50

Centrum is backed by over 40 years of nutritional expertise

Only 28% of adults (19-64) and 18% of children 5-15 eat the 5-a-day recommendation for fruit and vegetables.¹

As a partner to good eating habits, Multivitamin supplements can support a patient's health and wellness goals year round.²

Centrum – multivitamins* to support the needs of all life stages and help bridge nutritional gaps

- Centrum Kids
- Centrum Men and Women
- Centrum Adults 50+

DID YOU KNOW?

The makers of Centrum continue to apply scientific expertise beyond nutrition, with a specific focus on products for concerns relating to body and lifestyle

DID YOU KNOW?

Centrum is by far the most clinically studied multivitamin brand in the world

World's no.1 multivitamin*

*Based on worldwide value sales of the Centrum range

*Centrum products contain vitamin D which contributes to the normal function of the immune system & vitamin B12 which contributes to the reduction of tiredness & fatigue. Except Centrum MultiGummies Immunity Support which contains vitamin D which contributes to the normal function of the immune system & zinc which contributes to the protection of cells from oxidative stress.

Are you maximising your bladder weakness space?

GENERIC PLAN – 1 BAY

- Pants is the largest bladder weakness sector, accounting for 55% of value sales
- Bladder weakness is more common than hay-fever
- The bladder weakness category is worth £22m in OTC sales
- Shoppers are loyal to their product so ensure you have the different variants don't duplicate types but ensure you have a clear range

The world's population is ageing

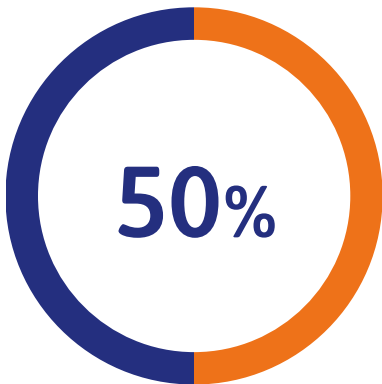

– increasing the need for pharmacy products and expertise

At TENA, we understand the growing challenges in the pharmaceutical market. Competition and price pressure are increasing as well as demand for a comprehensive assortment and professional shopping advice. But at the same time, changing demographics and consumer needs can bring new business opportunities.

As the world's population ages, more and more elderly people will need a range of relevant products along with professional advice from trusted advisors.

Pharmacies are ideally placed to take advantage of this business opportunity and become the go-to health store for all the needs of this quickly growing consumer group.

The number of people over 80 years of age is estimated to grow by 50% over the next 20 years¹

1. Eurohealth policy in brief 2018

TENA ProSkin 3 step skin health approach

As skin gets older, it gets more fragile and slower to heal, at TENA we know that with incontinence, skin is even more at risk. That's why prevention is key..

A simple care routine to maintain skin health in the perineal area:

The TENA 3-step skin health solution

Every time you use TENA ProSkin products, you're not just managing incontinence; you're actively keeping your loved one's skin healthy. That means less time spent dealing with skin issues and more quality time to share together.

PROskin

3x PROTECTION

Specifically designed to maintain natural skin health

FeelDry Advanced – quickly absorbs liquid away from the surface, keeping the skin dry

Breathable

Textile-like, breathable materials that allow air to circulate for skin health and comfort

Skin Health Alliance accreditation

An independent, leading international institution that endorses TENA ProSkin as a skin friendly product

3X protection

Triple protection for dryness, softness and leakage security to help maintain natural skin health

Dermatologically tested

All materials are dermatologically tested to promote skin health

100% agree it maintains skin health¹

TENA ProSkin with FeelDry Advanced for fast absorption to keep the skin dry. Fully breathable and dermatologically tested. The fast-acting core provides high leakage security. The textile-like material feels very soft and the multi-fixation secures a comfortable fit.

Your business opportunity

– become the go-to health store for family caregivers with the TENA ProSkin range The heavy incontinence market is growing. People are getting older. The age group 70+, where heavy incontinence is most prevalent, is adding the most value to the category.

caregivers look after someone with incontinence¹

A perfect match for your know-how

Many caregivers are new to incontinence care. This is a perfect opportunity for you to provide professional advice.

Unlock new revenue streams Caregivers visit their pharmacy on a regular basis to restock. This promises excellent cross-selling Opportunities.

Introducing the NEW TENA PharmacyHub

A hub specifically for pharmacy stores has been developed, with easy access to everything you need to maximise sales of TENA.

This one stop hub features new branded POS kits available by request or for download; planograms to suit your stores' requirements, the latest TENA news and training videos for you and your staff, all at the click of a button.

How do I sign up to the Hub?

1

Head to
tenapharmacy.co.uk
on a mobile or desktop
and click register.

**2**

Enter your details
including your name,
email address,
store/pharmacy name,
address and postcode.

(Please note that you are able to
edit your account details at any
time in the My Account section).

3

If you would like to
receive updates about
new content being
added to the hub by
email, please tick the
box in the entry form.

4

Once signed up you
will have immediate
access to the the
PharmacyHub.

Sign up today at www.tenapharmacy.co.uk

If you have any questions about the **TENA PharmacyHub** then please contact us at: info@tenapharmacy.co.uk

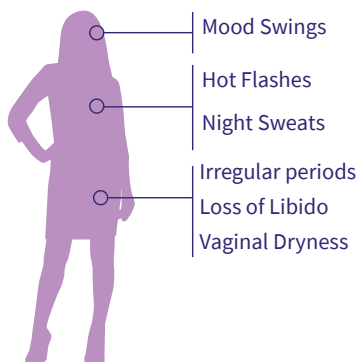

FOCUS ON THE MENOPAUSE

The menopause is a natural part of ageing that usually occurs between 45 and 55 years of age, as a woman's oestrogen levels decline.

In the UK, the average age for a woman to reach the menopause is 51. However, around 1 in 100 women experience the menopause before 40 years of age. This is known as premature menopause.

Symptoms

Menopausal symptoms can begin months or even years before periods stop and last around four years after the last period, however, around **1 in every 10 women experience them for up to 12 years.**

Most women will experience menopausal symptoms. Some of these can be quite severe and have a significant impact on everyday activities.

The unspoken symptom - Vaginal dryness

Vaginal dryness can affect everyday life, whether women are sexually active or not. Changes to the body can be difficult to accept and pain and discomfort caused by the condition can lead to a loss in self-confidence and sexual confidence, having a detrimental affect on quality of life and making the issue difficult to discuss. It's important women are aware there are effective treatments available.

17%
of women suffer
pre-menopausal

58%
of women suffer
post-menopausal

DRYNESS JUST DURING SEX

Friction related – soreness, burning, “ouch!”

Linked to low libido – can reinforce signs of ageing

Discovered during foreplay or at point of penetration

Affects partner too, which adds emotional dimension

DRYNESS WHICH IS ON-GOING AND EVERY DAY

Constant discomfort – soreness, spotting, stinging

Impacts daily life – frustration and a constant distraction

Needs constant attention – needs to be cared for with products

Sufferer feels low and continually “unwell”

VAGINAL DRYNESS - NO MORE SUFFERING IN SILENCE

A vaginal moisturiser is a great option for women who are experiencing ongoing discomfort due to vaginal dryness, or are experiencing painful intercourse and looking for the ability to be spontaneous, day or night.

Unlike a vaginal lubricant, which seeks to enhance sexual intimacy, a vaginal moisturiser can be applied regularly and at least 2 hours prior to sex, rather than right before as you would with a lubricant. A vaginal moisturiser aims to replenish vaginal moisture, working with your body to relieve ongoing discomfort experienced with vaginal dryness.

The lubricant
sub-category
is now worth

£24m^{}**

VAGINAL MOISTURISERS - HOW DO THEY WORK?

Step 1

Replens MD™ immediately goes to work providing soothing moisture to dry vaginal cells for long-lasting hydration.

Step 2

It delivers continuous moisture which vaginal cells absorb, regaining natural integrity and elasticity for up to 3 days, helping to replenish moisture to dry cells and supplementing the body's natural lubrication.

Step 3

As the cells of the vaginal wall are regenerated, dead cells are cleared and Replens MD™ is eliminated naturally. Regular moisturising will help prevent dryness from recurring.

REPLENS PROVIDES LONG LASTING RELIEF

35g TUBE & REUSABLE APPLICATOR (4 WEEKS SUPPLY)

6 PRE-FILLED APPLICATORS (2 WEEKS SUPPLY) x12 applicators available on prescription

PRODUCT INFORMATION

- The oestrogen-free way to relieve vaginal dryness and replenish vaginal moisture

Strategic Direction for 2022

- Position Milton as The Sterilising Expert
- 'Protecting what's Precious' - wherever you are, in and out of home
- Develop products that are environmentally friendly - caring for your baby and the environment
- Share knowledge on product compositions: plant based active ingredients. No GM pesticides
- Advertise throughout the year, maintaining an 'always-on' presence

Milton's Promises

A strategic move towards more plant-based technology

- Antibacterial formulas containing plant-based active ingredients, effective on 99.9% of germs
 - Lactic acid derived from corn or beetroot
 - Alcohol derived from beetroot
 - Peracetic acid from mineral origin
- Biodegradable cleaning formulas containing natural ingredients
 - Plant-based cleaning agents
 - Ingredients from renewable resources

An eco-friendlier approach respecting the user and the environment

- Recyclable packaging and reduction of plastic whenever possible
- Recommendation to follow dosage guidance that limits the impact on the environment

- 
- Quaternary ammonium • Petroleum derivatives • Preservative (MIT, MCIT)
 - Colouring • Allergenic fragrances
 - Ingredients from animal origin

A range for dry & eczema-prone skin

Daily Moisturising Cream.

Keep skin at peace.

Diprobase® Daily Moisturising Cream contains a unique derma-defence formula for everyday skin protection:¹

- Enriched with prebiotics & sea buckthorn oil, the cream helps strengthen the skin barrier and provides long-lasting moisturisation
- Contains provitamins that help the skin's natural regeneration process and natural lipids to protect the skin from drying out

^{*}96% of babies completing the clinical study did not develop new flare-ups of extreme skin dryness over three months.

SUMMARY OF TERMS

1. Where accounts have been approved for credit, payments are due 30 days from the month of invoice. Sigma Pharmaceuticals Plc reserves the right to charge interest on overdue accounts at the rate of 4% above the LIBOR (London InterBank Offered Rate) per month without prejudice to the right of recovery. Cheques payable to Sigma Pharmaceuticals Plc. Sigma Pharmaceuticals Plc reserves the right not to process the orders in case of an overdue account.
2. All orders and prices quoted are subject to the standard rate or reduced rate of V.A.T. on the NETT invoice value. The invoice date is the tax point for V.A.T. purposes.
3. Products on offer in the PLOF are not eligible for any further discounts.
4. All delivery enquiries must be notified within 24 hours of delivery
5. Prices are correct at time of going to print, but are subject to change without prior notice. Sigma Pharmaceuticals Plc reserves the right to amend any of their prices without due notice. Orders are accepted on condition that the goods will be invoiced at the prices ruling at the date of delivery. All images shown are for illustrative purposes only.
6. Invoice queries must be raised within one week of invoice date.
7. The goods shall remain the sole and absolute property of the seller and legal equitable owner until such time as the buyer shall have paid to the seller the agreed price together with the full price of any other contract with the seller.
8. Standard terms and conditions apply, as per trading terms, available upon request.
9. RSP's shown are supplied by the manufacturers and are correct at time of going to print. It is at the retailers discretion to set their own retail price and margin.

CLAIMS AND RETURNS

DELIVERIES

When accepting your delivery please ensure the number of boxes/bulk received match the drivers runsheet and that any discrepancies are clearly marked. Non-delivery must be notified to Sigma Pharmaceuticals Plc within 1 service day of invoice date or advice of despatch.

RETURNS

Under existing rules and regulations issued by the DHSS and as published in "MAIL", goods will only be accepted for return by Sigma Pharmaceuticals Plc for the following reasons:

- To correct an error in delivery or ordering.
- In response to a product or batch recall instigated by a manufacturer.
- Where products or packages are alleged to be faulty.

In order to be considered for credit or replacement the goods must be accompanied by a note showing:-

- The name and address of the customer returning the goods.
- The quantity and description of the goods.
- The invoice number on which the goods were supplied.
- The reason of the return.

Transfer Order Queries

Call **01923 331 411** and ask for the Transfer Order Department.

Expiry Date Queries

Dates on products should be checked upon delivery. If you wish to return an item due to the date, please follow the return procedure mentioned previously.

Items Missing From Delivery

Call **01923 444 999** within 24 hours of delivery.

Wrong Item Supplied

Mark the required item with the code of 'B' on your invoice/return slip.

Goods Ordered in Error

Mark the item with the code of 'H' on your invoice/return slip.

Goods Arrived Damaged

Mark the item with the code of 'F' on your invoice/return slip.

Recall Stock

All recall stock must be written on a return slip with the date, quantity and reason code K.

OTC & HEALTH AND BEAUTY TRANSFER ORDER OVERVIEW

Sigma offers a comprehensive transfer order service offering prompt deliveries, transparent invoicing and full advantage of manufacturers multi-level discounts (MLD) across a wide range of manufacturers.

WHY USE SIGMA FOR TRANSFER ORDERS?

Our transparent invoice structure, quick turnaround and dedicated customer service means we are the preferred choice with manufacturers and third-party sales teams for transfer orders. Advantages of putting your transfer orders through Sigma:

- A minimum of 10% wholesaler discount on transfer orders*
- Transparent discount structure
- More than 95% of products are available to order in singles
- Aim to deliver stock within 48 hours from receipt
- Back orders held for 60 days
- Dedicated transfer order team that can be directly contacted by telephone or email.
- Committed to ensure transfer order queries are resolved within 72 hours

* Ethical and Rx Lines may not qualify for this discount

15

UK's
No.1 selling
scar &
stretch mark
product.

IRI, 2017

"I had a fall last summer that left me with scars on my face and my foot. I purchased Bio-Oil on a whim a few weeks ago. It is a miracle product. The scar on my face has already started to look better and the dark scar on my foot has faded to a mid-tone pink colour. I never write to companies about their products but felt compelled to do so for this one. I feel pretty without make-up again. Didn't think that would happen. You have a huge fan in me. Thank you so much."

Clinitas® dry eye soothing

get your share of this
£100m category

Dry eye discomfort is a common and increasingly prevalent condition. It occurs when insufficient tears are produced, or the tears are poor quality and the tear film doesn't function properly.

top recommender tips

Choose a preservative free product:

Avoid preservatives where possible. This is particularly important if a patient has allergies or sensitivity to preservatives and is using in conjunction with glaucoma or allergy eye drops.

Choose an eye drop that contains Hyaluronic Acid:

Many modern eye drops contain Hyaluronic Acid, NaHA (Sodium Hyaluronate), a natural lubricant that is found in the body. It lasts much longer on the eye, offering lasting hydration and lubrication.

Consider ease of use to aid customer compliance:

Drops come in many shapes and sizes. Look for bottles that patients will find easy and intuitive to use, or are available in unit dose vials. The easier the drops are to handle, the greater the chance of compliance and success.

Look at other dry eye treatment options:

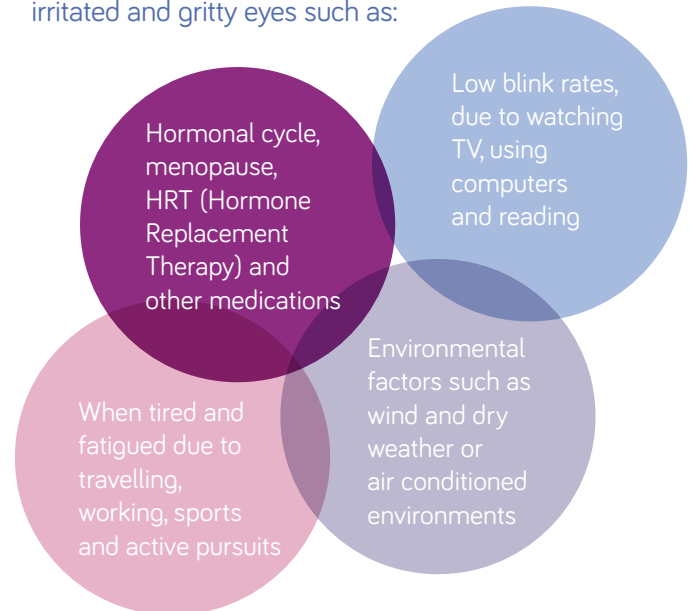

As well as dry eye drops, patients may benefit from products that treat Blepharitis and Meibomian Gland Dysfunction, such as the use of a warm eye compresses and lid wipes. Patients may also benefit from using a gel or ointment at night.

Consider aggravating environmental factors:

Make sure patients look after their eyes when using digital screens by taking regular breaks. Central heating and air-conditioning can also cause issues. Patients should also have regular eye tests.

Dry eye is a common condition that can easily be treated and managed in community pharmacy.

Trust the Clinitas® range of preservative-free drops to quickly and effectively relieve the causes of dry, irritated and gritty eyes such as:

what to look out for

Dry eyes are not always... dry!

Common symptoms to look out for include:

Sore eyes gritty, tired, especially after concentrated visual tasks.

Redness around the eyelid margins.

Excessive watering while this might seem a paradox, watery tears irritate the ocular surface and trigger the same sensations.

Frequent blinking - Burning or stinging.

Irritation from air conditioning tear film evaporation is exacerbated with dry conditioned air.

you and your patients love clinitas

"Extremely refreshing - great product and helps relieve eyes. Definitely recommend!"

Clinitas Soothe Multi, 27th September 2018

"Best product I have found for use at night"

Clinitas Hydrate, 3rd May 2016

"Love all of these. I ensure I keep drops around the house, e.g. bathroom, bedroom, sitting room and kitchen. That way I don't forget to use them"

Clinitas Soothe, 10th January 2019

"The Clinitas range is our 'go to' recommendation for dry eye. Altacor has been helpful and responsive in supporting us to sell and recommend the product to best effect, particularly in enthusing our staff as well as educating about the condition and the range."

Mr Phillips, Director/Superintendent Pharmacist

innovative delivery systems

multi dose

Soothe in a bottle

The dropper mechanism of the multi dose bottle enables the patient to accurately administer single drops.

The 10ml multi dose eye dropper bottle allows our unique sodium hyaluronate 0.4% dry eye formulation to be truly preservative free and be used for up to 3 months once opened. The soft blue silicone tip gives confidence in application accuracy.

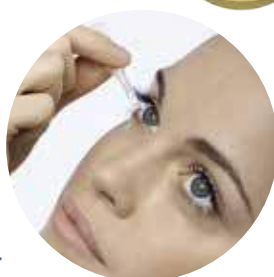

zero maximum
preservatives sodium hyaluronate (0.4%)

Both Clinitas Soothe and Soothe Multi use the same 0.4% HA formulation, the highest level available in the UK.

single day use

Soothe in an individual dose

Clinitas Soothe® single day use mini droppers are easy to use and can be resealed, so that unused solution can be used for up to 12 hours.

Patients love the convenience of keeping vials in different places around the home, at work, in a sports bag or in the car, so that instant dry eye relief is always on hand.

Liquid gel formula

Clinitas Hydrate® is a high performance liquid gel drop that rapidly spreads across the cornea to reduce friction and provide lubrication.

The carbomer component boosts the aqueous layer by releasing bound moisture. A longer residence time makes it ideal for use overnight and providing outstanding relief.

Migraleve™

MIGRALEVE™ Pink contains paracetamol and codeine, to treat the patient's head pain, together with buclizine, to relieve nausea. If taken at the first sign of a migraine, MIGRALEVE™ Pink can prevent an attack from developing further. If further treatment is required, this can be followed with MIGRALEVE™ Yellow.

MIGRALEVE™ Yellow contains paracetamol and codeine, which treat the patient's continuing headache symptoms. This should only be taken after the first dose of MIGRALEVE™ Pink, if required.

MIGRALEVE™ contains both MIGRALEVE™ Pink Tablets and MIGRALEVE™ Yellow Tablets to combat the different stages of a migraine attack. Contains paracetamol, buclizine and codeine.

Migraleve. Presentation: *Migraleve Pink:* Tablet containing Buclizine Hydrochloride 6.25mg, Paracetamol 500mg, Codeine Phosphate 8mg. *Migraleve Yellow:* Tablet containing Paracetamol 500mg, Codeine Phosphate 8mg. **Uses:** For the short term treatment of acute moderate pain which is not relieved by paracetamol, ibuprofen or aspirin alone such as migraine attacks including the symptoms of migraine headache, nausea and vomiting. **Legal category:** P. Olbas – A Heritage Brand

Olbas is one of the oldest brands in the LanesHealth portfolio and has been helping families to breathe easy for generations. Olbas was originally developed in Sweden in the early part of the 20th century. LanesHealth acquired the Olbas brand in 1971 and it has gone from strength to strength becoming the UK's number 1 selling decongestant Oil*. LanesHealth is a family based company with over 90 years' experience promoting health and wellbeing.

Find out more about the Olbas brand, products and view our TV advert on our website olbas.co.uk

SOOTHING SCIENCE

**AS SEEN
ON TV**

As a healthcare professional, every clinical decision you make has a scientific basis;
and caring for skin should be no different.

The QV range of soap-free, dermatologically tested cleansers and moisturisers are specifically developed for sensitive skin. The QV range is suitable for use with eczema, psoriasis, dermatitis and a range of dry skin conditions.

www.qvskincare.co.uk

Further information and samples are available from

APPLIED SCIENCE

15% GLYCERIN FOR SKIN HYDRATION

QV Gentle Wash is a soap-free alternative for the cleansing of dry skin and is suitable for use with eczema and psoriasis. It is pH balanced for sensitive and dry skin conditions and helps to maintain skin's natural protective properties with the added benefit of glycerin for skin hydration.

QV Gentle Wash

- Won't strip away natural oils like soap can.
- Suitable for use with eczema, dermatitis, psoriasis, dry and very dry skin.
- Low irritation potential.
- Free from including fragrance colour & other common irritants

Recommend QV, and let your dry-skin patients enjoy a welcome demonstration of applied science.

Snoreeze Product Training

Mild to moderate snorers

Loud snoring & mild/moderate sleep apnoea

Snoring caused by colds or allergies

throat spray

oral strips

lozenges

oral device

nasal spray

nasal strips

HOW IT WORKS

Helps tone and lubricate the soft tissues at the back of the throat

Gently advances and maintains the position of the jaw; helping to clear the obstructed airway

Helps decongest the nasal passages and opens the airways

Gently helps open the airway to improve airflow

HOW TO USE

Spray 3 times into the back of the throat before bed

Place at top of mouth, strip dissolves instantly

Place on the tongue, dissolves in 3 minutes

Mould using boil-and-bite method and use the screws to correctly adjust the lower jaw forward

Spray twice into each nostril before bed

Applied on to the top of the nose

KEY BENEFIT

8 hours proven and effective

8 hours proven and effective
Non-liquid formulation
Convenient for travelling

Non-liquid formulation
Convenient for travelling

Customised to fit in less than 5 minutes
Effective against mild/moderate sleep apnoea
Fully adjustable
Soft inner layer providing a secure comfortable fit

8 hours proven and effective

Latex-free
New design & improved performance

For product ingredients and precautions, please see the individual Snoreeze product pages on snoreeze.com

snoreeze Europe's most effective snoring relief range

TENA®

PROskin

3x PROTECTION

A new approach to skin health
from the leading incontinence expert

As skin ages it becomes thinner, more fragile, takes longer to heal. At TENA we know that with incontinence skin is even more at risk. That is why prevention is key. TENA ProSkin range with FeelDry Advanced quickly absorbs liquid away from the surface, keeping the skin dry.

TENA. BETTER CARE IS BETTER FOR EVERYONE

HELPS SUPPORT YOUR BODY'S NATURAL IMMUNE DEFENCES[†]

[†]contains vitamin C, selenium and zinc
which each help support the immunity
and contribute to the protection
of cells from oxidative stress

Supporting ongoing immunity is one of the reasons consumers say they started using VMS. 26% of shoppers said the reason they started using VMS was to support immunity.³

A unique blend of
high quality nutrients:

Vitamin C

Selenium

Zinc

1 in 3 people in GB intend to take more VMS to help support their immunity, especially aged 16-34 and those with kids.⁴ Centrum Immunity & Cell Protection will help to fulfil this growing shopper need.

Centrum

World's no.1 multivitamin*

3. Understanding the vitamin shopper Research MMR Mar 2021. Base: 929.

4. Nielsen Total Scantrack, Vitamins & Minerals, Value & Unit Sales, Full Year 2020 vs. 2019.

The role of nutrition in the immune system

It is widely recognised that nutritional status is linked to immunocompetence and that adequate nutrition is required for optimal functioning of the immune system.⁵

51% of shoppers said immunity support was the most important factor in the purchase of multivitamins⁶

A summary of key micronutrients in immune function

Micronutrient	Function
Selenium	Antioxidant – contributes to the protection of cells from oxidative stress Contributes to the normal function of the immune system
Copper	Contributes to the normal function of the immune system
Zinc	Contributes to the normal function of the immune system Contributes to the protection of cells from oxidative stress and so is an antioxidant Contributes to the maintenance of normal skin
Iron	Contributes to the normal function of the immune system and has a role in the process of cell division
Vitamin C	Contributes to the protection of cells from oxidative stress and is therefore an antioxidant Contributes to the normal function of the immune system Contributes to collagen formation for the normal function of skin
Vitamin D	Contributes to the normal function of the immune system
Vitamin A	Contributes to the normal function of the immune system Contributes to the maintenance of normal skin and mucous membranes
Vitamin E	Contributes to the protection of cells from oxidative stress and is therefore an antioxidant
Vitamin B6 and B12	Contributes to the normal function of the immune system

Centrum Immunity & Cell Protection

Specially formulated for immune support. Contains Vitamin C, zinc and selenium each contribute to the normal function of the immune system and the protection of cells from oxidative stress.
